RE: Rob Thompson, C.P.A.

To Whom It May Concern:

For the past twenty years Rob Thompson, C.P.A. has done my mother Pauline's taxes and she has always been very satisfied and impressed.

My mother is in her 80's now and Rob has provided the kind of service we just can't imagine finding with another tax professional. He looks out for my mother's interests and has often stopped by the house to drop things off or pick them up, waited while she reviewed documents to be signed and has always been polite kind and courteous. He has stopped by the house now for several years as he says "Well, it saves her the drive." And really we think that is just the kind of man he is.

And he is prepared; when he stops by he has everything ready for my mom and takes his time explaining each piece and the work he has done.

Needless to say my mother's financial security is very important to our family and to her. And over twenty years Rob has proven to us that my mother's financial security is very important to him as well. He looks out for my mother's financial interests in ways we have come to truly admire and appreciate. I must say we feel very comfortable and confident in Rob's professional abilities and we like having his company as a friend.

We have used other accountants in the past prior to our engaging Rob to do my mothers work and none of them provided type of time, attention to detail or the real concern for my mothers taxes that Rob has.

We feel that Rob is a genuinely good, kind, honest and interested tax professional who in our experience over twenty years working with him, looks out for his clients interests.

If you should have any questions regarding this letter my mothers or my own recommendation of Rob Thompson CPA, please feel free to contact me at any time at 717 295 8485,

Most Sincerely,

Joanne Coleman (For Pauline Houck)
